Support for investment attraction and export-oriented productive development as drivers of economic growth in Ecuador

Project Description

According to the IADB, the overall objective of this Technical Cooperation (TC) is to support the Government of Ecuador, particularly the Ministry of Production, Foreign Trade and Investment (MPCEI), in structuring and implementing Operation EC-L1347, an investment program to boost Ecuador's productive internationalization. The specific objectives are: (i) to support the design, evaluation, and updating of policies, instruments, and strategies aimed at attracting private investment, facilitating foreign trade, and strengthening businesses; and (ii) to strengthen the technical and institutional capacities of the MPCEI to lead, coordinate, implement, monitor, and evaluate this programmatic agenda.a.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
