Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to strengthen the CFN's institutional capacity to promote financing for productive investments by Small and Medium-sized Enterprises (SMEs) through the evaluation and analysis of the CFN's portfolio segmentation methodology--with an emphasis on the geographic dimension--within the framework of Program EC-L1302. The specific objectives of the TC are: (i) to strengthen institutional management mechanisms by designing and implementing portfolio segmentation tools that enable more efficient and targeted management of productive financing; and (ii) to support the measurement and monitoring of effectiveness indicators for financing directed at SMEs.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
