Bank Risk Rating	U
Borrower	Government of Ecuador
Sectors	Finance
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.20 million
Project Cost (USD)	\$ 0.20 million

Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to strengthen the institutional capacity of the Government of Ecuador to support the operationalization of a National Digital Infrastructure Development Plan, with the aim of promoting the sustainable and equitable development of the country's digital ecosystem. The specific objectives are to: (i) develop technical, economic, and socio-environmental analyses to identify and prioritize digital infrastructure initiatives at the national level; (ii) strengthen institutional planning and coordination processes to improve the implementation of strategic digital infrastructure projects; and (iii) design a governance and decision-making framework to facilitate the structuring, implementation, and monitoring of priority initiatives, ensuring their sustainability and long-term impact.

Investment Description

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
