Investment Amount (USD)	\$ 0.15 million
Project Cost (USD)	\$ 0.15 million

Project Description

According to the IADB, the objective is to strengthen the institutional capacities of the National University of Loja and extend lessons learned to other strategic public universities in Ecuador, thereby enhancing their contribution to regional productive development. The specific objectives are: (i) to analyze and characterize the regional innovation ecosystems linked to the National University of Loja and other public universities, identifying gaps, key stakeholders, and opportunities to strengthen their contribution to productive development; and (ii) to strengthen the institutional capacities of the National University of Loja and other public universities to design, manage, and promote activities related to research, innovation, technology transfer, and engagement with the public and private sectors.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
