Borrower	Government of Ecuador
Sectors	Energy, Finance, Law and Government
Investment Type(s)	Guarantee
Investment Amount (USD)	$ 77.00 million
Project Cost (USD)	$ 77.00 million

Project Description

As stated by the IADB, the General Development Objective of the first individual guarantee operation under the CCLIP and the loan operation for the institutional strengthening is to contribute to the reduction of greenhouse gas (GHG) emissions from the Ecuadorian energy sector. This will be achieved through the Specific Development Objectives: (i) promote the growth of FNCER production capacity; (ii) stimulate private investment in FNCER production; and (iii) contribute to the institutional strengthening of the main regulatory entities and control bodies of the energy sector.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
