Project Description

FROM IADB:

The general objective of the program is to contribute to improving the conditions of public passenger transport and general traffic in the San Salvador Metropolitan Area (AMSS), through the implementation of a segregated urban public transport corridor. The specific objectives of the program are to improve the quality of the public transport service, increase reliability and reduce travel times in one of the main transport corridors of the AMSS. In addition, the program will contribute to improving urban road safety and improving environmental pollution.

The project will obtain the following products and results: (i) physical: through the execution of the works, the recovery of the urban space through the improvement of platforms, pedestrian crossings, stops, access areas, and road signs; And (ii) operational: such as reduction of time, transportation costs and user satisfaction.

Investment Description

- Inter-American Development Bank (IADB)

The proposed loan will be for up to US$85 million.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
