| **Investment Type(s)** | Loan |
| **Investment Amount (USD)** | $ 70.00 million |
| **Project Cost (USD)** | $ 70.00 million |

## Project Description

FROM IADB:

This project will support the improvement of the tertiary and rural road network in El Salvador, facilitating the permanent road connectivity in areas where there is high potential to develop productive activities and relatively higher poverty indicators.

This program aims to contribute to poverty reduction and economic development in the rural areas of El Salvador by improving accessibility conditions and facilitating the integration of areas with productive potential with national and international markets. The project specifically will: i) reduce vehicle operating costs and ii) reduce travel times on the rural road sections operated by the project.

## Investment Description

- Inter-American Development Bank (IADB)

This project is in the form of an investment loan of US$70 million from the IADB's Ordinary Capital.

## Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
