## Project Description

The general objective is to increase the access of the citizens of El Salvador to fixed and mobile broadband services initially for education and health, under a comprehensive model that guarantees the sustainability of the provision of these services in the long term, at a technical-operational and financial level. To achieve this, the following specific objectives are established: (i) improvement of connectivity through investment in infrastructure for a National Connectivity Network as the basis for the Digitization of El Salvador; (ii) improvement of the conditions for adopting digital infrastructure solutions; and (iii) increase in institutional and operational capacity that allows the development of the 2020-2030 National Digital Agenda promoted by the Ministry of Innovation of the Presidency, as the governing body of all government institutions on innovation and technology issues.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
