Project Description

The objective of this Technical Cooperation is to support the implementation of the Integrated Health Project II (ES-L1095), which aims to improve the health of the population, through technical assistance to mitigate fiduciary, public and developmental risks.

The Integrated Health Project II aims to strengthen health services at all levels of care of the network, and of the efficiency of public network management. The expected impacts are: (i) improvement of standards of service to the population; (Ii) deceleration and reduction of mortality related to chronic noncommunicable diseases; And (iii) improved management and productive efficiency. As part of this project, two hospitals will be built: a regional hospital and a specialty hospital. The IADB will assist primarily with advancing technical development.

Investment Description

- Inter-American Development Bank (IADB)

The investment is in the form of USD 290,000 of non-reimbursable technical cooperation through the Spanish Framework General Fund.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
