Project Description

As of the time of writing, the Inter-American Development Bank has released little information on this project. According to the website, the project aims to "incorporate the use of technology tools to improve health with emphasis at the community level. This project will help: (i) to develop a pilot to implement an Iformation Technology (IT) tool at the community level; (ii) improve business intelligence tools for decision-making; and (iii) evaluate the cost / benefit of the IT tool and help systematize the health information system."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
