Knowledge Exchange for the Strengthing of BANDESAL Through Intra-Regional Experiences for the Scalin

Project Description

The objective of technical cooperation (TC) is to support the strengthening of BANDESAL's technical capacity to scale up access to MyPE credit, through the experience of public financial entities in Colombia and Mexico. In particular, the CT will promote the learning of best practices to: (i) strengthen partial credit guarantee systems that favor access to MyPE credit, and (ii) execute second-floor green financing lines aimed at the same segment goal. The CT will collaborate with BANDESAL in the visit to the National Guarantee Fund (FGN) and the Foreign Trade Bank (Bancóldex) in Colombia, as well as to National Financial (NAFIN) in Mexico; public financial institutions with a wide and recognized track record in these aspects.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
