Investment Amount (USD)	$ 0.15 million
Project Cost (USD)	$ 0.18 million

Improving the Productivity of MSME Freight Carriers in El Salvador (Trucks on Diet)

Project Description

According to the Bank's website, this project supports the installation of sensors and modems in cargo trucks, as well as a cloud-based platform that the authorities of El Salvador and the owners of the truck fleet will be able to monitor in real time. Additionally, this project supports the installation of electronic virtual fences which automatically weight the equipped trucks in order to reduce the number of necessary truck stops.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
