Project Description

IDB Lab has the main objective of contributing to developing a highly demanded workforce, better prepared for the knowledge economy. In addition, it will contribute to the strengthening of the labor capacities most adapted to the changing panorama of the work of the future, due to the accelerated rate of technological trends. The project thus aligns with the IDB Lab's portfolio of skills and future of work projects, and also promotes the transfer of learning from the Laboratory to the Kcode Foundation on how to reach more vulnerable women and achieve a self-sustainable model.

Investment Description

- Inter-American Development Bank (IADB)

The country's counterpart ammounts to USD 750,000.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
