Promotion of the Flexible Plastics Recovery Chain

Early Warning System

Promotion of the Flexible Plastics Recovery Chain

IADB-ES-T1334

Quick Facts

Countries	El Salvador
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of El Salvador
Sectors	Industry and Trade, Technical Cooperation
Investment Amount (USD)	$ 0.26 million

Project Description

With the objective of strengthening the inclusive recycling value chain and to support the processes that will favor circular economy models in El Salvador, this TC will promote the inclusion of recyclers in solid waste management systems in the country and in turn create the conditions for the creation of new markets for materials that currently have no commercial outlet. This creation of new markets will be carried out through the transfer and implementation of existing technologies for the treatment and processing of flexible plastics for the production of plastic wood. This new by-product can be used for the construction of school classrooms, social housing and school furniture.

Investment Description

- Inter-American Development Bank (IADB)

The investment type was not available at the moment of the snapshot.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
