gigES: WorkerTech for Independent Workers and the Informal Sector in El Salvador

Project Description

The objective of the project is to create and promote the WorkerTech ecosystem for independent and informal workers in El Salvador. It will seek to identify and support concrete solutions from both the private and public sectors to improve the benefit of independent workers on the platforms or in the informal sector. In addition, an observatory will be created to generate knowledge for the relevant actors from the private, public and civil society sectors involved.

Investment Description

- Inter-American Development Bank (IADB)

The country counterpart amount to USD 1,500,000.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
