Borrower	Gobierno de El Salvador
Sectors	Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.15 million
Project Cost (USD)	\$ 0.15 million

Project Description

The main objective of the technical cooperation is to strengthen the Government of El Salvador's capacity for the management and strategic monitoring of the project portfolio aligned with the Growth Action Plan (PAC). To this end, it will support the creation of a portfolio monitoring group within the Government's Growth Unit, with a cross-cutting mandate to provide technical follow-up on the Bank's interventions, facilitate operational coordination between the various executing units and the Bank, systematize progress, identify synergies, and anticipate implementation bottlenecks--thus contributing to a more strategic, integrated, and efficient management of operations. Complementarily, the TC will support the design of a pilot program for urban-productive development with a territorial and productivity-based approach, aimed at fostering sustainable and inclusive economic growth in the country by aligning policies and actions that strengthen local competitiveness, infrastructure, and job creation.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
