Early Warning System

Infrastructure for the Rural Electrification Program of Guatemala

IADB-GU-L1171

Quick Facts

Countries	Guatemala
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	B
Borrower	Government of Guatemala
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	$ 40.00 million
Project Cost (USD)	$ 40.00 million

Project Description

The general objective of the program is to increase the country's electricity coverage in the areas with the greatest deficits and which are close to the existing electrical infrastructure, by means of: (i) densification of the networks, incorporating new homes into the service in areas that are already covered; (ii) extension of the grids, by means of increasing the geographic coverage of the system effectively and efficiently; and (iii) strengthening of the networks to be extended, including the modification of its topology, as to guarantee the quality of the service required by the technical standards.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
