Investment Amount (USD)	\$ 250.00 million
Project Cost (USD)	\$ 250.00 million

Project Description

According to the Bank's website, the general objective of the Program is to increase electricity coverage in rural areas. The specific objectives are: (i) to increase the number of users with access to electricity service in rural areas; and (ii) to strengthen institutional capacity for planning, design and/or management of rural electrification projects.

Early Warning System Project Analysis

Category B: Likely to cause mostly local and short-term negative environmental and associated social impacts and for which effective mitigation measures are readily available.

Investment Description

- Inter-American Development Bank (IADB)

Up to US\$250,000,000, from the resources of the Bank's Ordinary Capital.

Contact Information

No contacts available at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
