Valentina Program: Disruptive Model to Accelerate the Placement of Disadvantaged

Project Description

From the IDB: "The objective of the project is to place disadvantaged Guatemalan youth, primarily women, in knowledge-based jobs. This objective will be achieved by providing training in technology and socioemotional skills to low-income youth, including indigenous populations, so that they can be hired by the companies that need these skills. This project is expected to help increase the number of women employed in technology jobs and thus narrow the salary gap between women and men."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
