Long-Term Decarbonization Strategy Guatemala

IADB-GU-T1328

Quick Facts

Countries	Guatemala
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Guatemala
Sectors	Climate and Environment, Law and Government
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.35 million
Project Cost (USD)	$ 0.35 million

Project Description

Support Guatemala in its efforts to decarbonize its economy through the creation of a long-term Decarbonization Strategy (LTS), consistent with the 2050 decarbonization targets under the UNFCCC, based on the DDPLAC initiative, which will be validated through a process of participation and dialogue among different stakeholders from the public, private and civil society sectors. The specific objectives are: (i) facilitate national stakeholder engagement to understand how decarbonization can help promote sectoral and macroeconomic development objectives to improve both the relevance of local analysis and stakeholder acceptance at the national level; (ii) produce simulations to assess options to achieve zero-net emissions while promoting targets to inform the design of sectoral pathways in the LTS by the government; (iii) build national analytical capacity to achieve the objectives and to enhance the long-term sustainability of the project; (iv) create a policy roadmap to inform relevant decision makers on viable and effective options for implementing the LTS; and (v) use the results to communicate the feasibility and benefits of decarbonization in Guatemala and to the region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
