## Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to design institutional and operational strategies to address the housing deficit in Guatemala through sustainable and resilient housing solutions, with an emphasis on vulnerable populations and the inclusion of diverse groups. For the various housing solutions, the design of different intellectual products will be considered, such as subsidies, financing, and guarantees, complemented by the transfer of knowledge through the strengthening of technical capacities and the generation of timely and quality information about the sector for the different actors involved in the housing value chain in Guatemala.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
