Voting Date	2025-10-14
Borrower	Gobierno de Guatemala
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.14 million
Project Cost (USD)	\$ 0.14 million

Project Description

According to the IADB, the general objective of this (TC) is to strengthen the functioning of Guatemala's SEGEPLAN cross-cutting planning, monitoring, and evaluation (M&E) systems and their linkages with pre-investment and public investment systems, in order to promote coordinated operation between these systems, facilitating the integration of national, sectoral, and institutional planning instruments with the national budget. This will improve the capacity to implement government priorities and execute the budget through procedures and tools that enable more effective monitoring of public plans, programs, and projects, and the widespread adoption of practices for evaluating results and the quality of public spending.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
