Project Cost (USD)	\$ 0.25 million

IADB-GU-T1372

Strengthening the strategy for continuous quality improvement in health care

#### **Project Description**

The objective of the TC is to support the efforts of the Ministry of Public Health and Social Assistance (MSPAS) in providing health services with a focus on continuous quality improvement, ensuring that care is safe, efficient, and aligned with the needs of the Guatemalan population. Specifically, it seeks to: (i) strengthen the technical capacity of the MSPAS to implement comprehensive, continuous, and quality care guidelines throughout the life course of the population; (ii) Develop the skills of health personnel to ensure the effective application of updated process guidelines; and (iii) Promote innovation and digital transformation in health care processes through the incorporation and adaptation of new technologies.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
