Investment Type(s)	Loan
Investment Amount (USD)	\$ 0.19 million
Project Cost (USD)	\$ 0.19 million

Project Description

According to the IADB, the objective is to strengthen the institutional capacities of the Executive Branch of Guatemala for the design, implementation, interinstitutional coordination, monitoring, and effective evaluation of the National Modernization Agenda of the Executive Branch. This will be achieved through the strengthening of cross-cutting public management systems in the areas of planning, budgeting, public procurement, public investment, monitoring and evaluation (M&E), human resource management, control systems, and digital transformation. This will help improve the efficiency, transparency, accountability, and results-oriented approach of public action, thereby enhancing the State's capacity to respond to citizens' needs and improve the quality of public services.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
