Project Description

The project aims to increase productivity of the agricultural sector while maintaining a sustainable and climate resilient use of natural resources in Guyana. The specific objectives are: (i) produce high quality data for the agricultural sector; (ii) increase productivity, especially for medium and small farmers; and (iii) increase sanitary and phytosanitary (SPS) standards and access to meat processing facilities. According to the bank, higher productivity will also contribute to reduce pressure on forest and fragile ecosystems, and at the same time, increase income for small and medium-sized farmers.

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
