Program to Strengthen Public Policy and Fiscal Management in Response to the Health and Economic Crisis Caused by COVID-19 in Guyana

Project Description

The general objective of the program is to strengthen the efficiency and effectiveness of fiscal policy and management in response to the health and economic crisis caused by COVID-19, through the design and implementation of effective and fiscally responsible policy measures. The specific objectives of the program are:(i) to promote the availability and timely execution of financial and material resources to respond to the effects of the health crisis caused by COVID-19; (ii) to strengthen the countercyclical effect of fiscal policy through the temporary introduction of measures to protect the income of vulnerable households and increase liquidity for businesses during the health and economic crisis; and (iii) support the effective and continuous provision of essential goods and services through public policy and management measures; and iv) promote economic and fiscal recovery in the post-pandemic period.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
