IADB-GY-T1108

Supplemental Endemic Fish Surveys for the Amaila Falls Hydroelectric Project

Project Description

This objective of this technical cooperation is to finance additional targeted surveys for C. Amaila to assist the project sponsor in completing its obligations to meet requirements of OP-703. These surveys are designed to determine if the species is found in a wider range of habitats and areas than it is presently known from.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
