Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.70 million
Grant Amount (USD)	\$ 0.70 million
Project Cost (USD)	\$ 0.70 million

Project Description

The objective is to contribute to the improvement of services delivered to citizens through measures aimed at strengthening the efficacy and efficiency of the public sector investment management, which will accelerate the execution and improve the quality of public investment projects. To do this, it seeks as a first step to facilitate a methodology to define the government's national priorities, articulating them in terms of their impact on Guyanese citizens. It aims to support the government in defining a set of measurable, concrete goals and targets to assess the progress in such key priority areas. The concrete and clear definition of the government's priorities will be the first step in the effort to enhance the management of Guyana's Public Sector Investment Program (PSIP), leading to a faster, more transparent and more effective execution of investment projects, with emphasis on those financed by external resources. The second step will seek to strengthen the PSIP chain through the design and implementation of a delivery management model, which will streamline and reduce the bottlenecks in the procurement and execution processes and ensure that the targets related to the key priority areas are met.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
