### Project Description

According to the bank, the objective of the Technical Cooperation (TC) is to support on-going efforts towards building strategic sector planning capacity of the Guyanese Government (within the new Department of Energy) to properly manage the nascent oil and gas sector. This TC will provide sector-specific expertise to advise the President and other high-level authorities on issues related to oil and gas. In addition, it will provide the bases for setting up current Production Sharing Agreement (PSA) contract management and protocols, including: (i) administration procedures; (ii) control and verification processes: and (iii) certification guidelines.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
