Borrower	Goverment of Guyana
Sectors	Infrastructure, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.35 million
Project Cost (USD)	$ 0.35 million

Project Description

The objective is to support the development of road projects and to strengthen the capacity of the public sector to overcome critical project issues (particularly socio-environmental and climate resilience aspects) and to manage a new public investment agenda. The purpose is to create capacity and assist a local counterpart technical team within the Ministry of Public Works (the Works Service Group) to lead project preparation in socio-environmental aspects, gender, project engineering and traffic management services.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
