IADB-HA-G1054

BlueTech Challenge: Fuego del Sol Haiti, Ultra-Efficient Biomass Combustion

Quick Facts

Countries	Haiti
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Fuego del Sol
Sectors	Industry and Trade
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.50 million
Project Cost (USD)	$ 0.50 million

Project Description

The objective of the project is to expand Fuego del Sol (FdS) Haiti's production of recycled plastic products, by implementing the proven plastics processing technology offered by Precious Plastic (PP). The FdS plastic recycling system, is the first globally that utilizes clean ultra-efficient biomass briquettes as the heating source to cleanly melt plastic into other usable items.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
