<b>Project Cost (USD)</b>	\$ 0.50 million

---

### Project Description

According to the Bank's website, the objective of the project is to support Alina Eneji in the process of expanding a decentralized, solar-powered grid network that will provide electricity service to 8,000 more households in rural Haiti by 2023.

---

### Investment Description

- Inter-American Development Bank (IADB)

### Private Actors Description

## The Company

Alina Enèji is a Haitian project developer. Their focus has been on providing clean, reliable and affordable electricity to last-mile areas of Haiti, and their ambition is to scale energy access across the nation with the combined support of local communities and institutional stakeholders.

Alina Enèji provides energy as a service to rural communities in Haiti using a Mesh Grid that consist of a decentralized network, solar power for generation, and battery storage for back-up. In 2023, Alina Enèji plans to scale an existing decentralized mesh grid supplying 1,000 households to 7,400 more households in the Artibonite and North regions of Haiti.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
