<b>Investment Amount (USD)</b>	\$ 2.50 million
<b>Grant Amount (USD)</b>	\$ 2.50 million
<b>Project Cost (USD)</b>	\$ 2.50 million

## Project Description

According to the IADB, the objective of this IGR Project is to support the sustainable and competitive supply of clean and cheaper electricity to industrial and residential users in the PIC's network through the development of a modern power system increasing the share of RE energy in the PIC.

## Investment Description

- Inter-American Development Bank (IADB)

## Contact Information

No contacts available at the time of disclosure

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
