Improving Electricity Access in Haiti

Quick Facts

Countries	Haiti
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2026-02-26
Borrower	Government of Haiti
Sectors	Energy
Investment Type(s)	Grant
Investment Amount (USD)	\$ 1.81 million
Grant Amount (USD)	\$ 1.81 million
Project Cost (USD)	\$ 1.81 million

Project Description

According to the IADB, the general objective is to increase the use of clean electricity in Haiti to promote economic development through lower tariffs and the strengthening of the sector's governance. The specific objectives are: (i) provision of electricity service at lower prices for residential customers outside the EDH grid; (ii) foster the supply of electricity with RE in the PIC; and (iii) reinforcement of sector regulatory and planning capabilities.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

No project contacts provided at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
