Countries	Haiti
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Voting Date	2024-06-21
Borrower	Government of Haiti
Investment Amount (USD)	\$ 16.00 million
Project Cost (USD)	\$ 16.00 million

Project Description

The project general development objective is to contribute to improvements to policy implementation and service delivery to citizens by supporting increased effectiveness of public management through digitalization. The specific development objectives are to: (i) increase the institutional capacity of the digital government agency; (ii) increase efficiency of core management systems run by the Central MEF through digitalization of Central MEF internal management; and (iii) increase cybersecurity monitoring and management capacity of priority public agencies.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
