Investment Amount (USD)	$ 70.00 million

Haiti Digital Transformation: Expanding Resilient Connectivity and Enabling Trusted Digital Government

Project Description

According to the IADB, the objective of the operation is to support Haiti's digital transformation by strengthening resilient international digital connectivity and enabling core digital government capabilities. It will finance the first phase of the Haiti More Connected program, including international submarine connectivity and initial cable landing infrastructure, while supporting institutional strengthening, electronic signature readiness, and the foundations for a national digital identity system.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
