Project Description

The general objective of the program will be to increase agricultural productivity, agricultural income, and food security for small farmers in selected areas of the North, Artibonite, Grand Anse and South Departments. The program will be structured in two components - Component 1: Applied research and training for the development and adaptation of sustainable agricultural technologies, and Component 2: Promotion of sustainable agricultural technologies.

The program will partially or totally subsidy farmers' access to agricultural inputs, equipment and services linked to these technologies, to be delivered by a network of local suppliers (agro-dealers, cooperatives, individuals, among others).

Investment Description

- Inter-American Development Bank (IADB)

The project has an estimated total cost of US$55 million. The proposed investment is a US$40 million grant from the IDB Grant Facility.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
