Project Description

From the IDB: "The expected impact of the project is increased sales and net job creation among Haitian MSEs. The intended result of the project is increased access to business loan and saving products and services for these enterprises, by supporting the Le Levier network of savings and credit cooperatives in establishing a professionalized MSE finance unit. The new model to be introduced is the "Affiliated CFE model" developed by DID, and which has been proven successful in Africa."

Investment Description

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
