Project Cost (USD)	$ 0.53 million

Project Description

The objective of the Technical Cooperation (TC) is to strengthen the national capacity to manage public investments in the agricultural sector by providing information to plan, prioritize and undertake investments in the improvement of irrigation infrastructure in Haiti. The main component of the TC is the completion of the National Irrigation Information System which started to be developed by MARNDR and CNIGS.

Investment Description

- Inter-American Development Bank (IADB)

Non-Reimbursable Technical Cooperation. Activities include:
1. Fine-tuning and finalization of the information system and database (US$150,000).
2. Data collection and treatment (US$250,000).
3. Elaboration of a synthetic atlas (US$50,000)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
