Chronic Disease and Poverty - Haiti Case Study

IADB-HA-T1220

Quick Facts

Countries	Haiti
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	C
Voting Date	2016-09-20
Sectors	Education and Health
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.15 million
Project Cost (USD)	$ 0.15 million

Project Description

The general objective of this Technical Cooperation (TC) is to advance local and global knowledge on non-communicable diseases and injuries (NCDI) in Haiti. In particular, it aims to assess the burden of disease from NCD and injuries (NCDI) among the poorest populations and to identify policies and integrated delivery platforms that would effectively address and reduce that burden. This knowledge will be a valuable input for the Ministry of Public Health of Haiti (MSPP) and the Global NCDI Poverty Commission.

The TC will finance consulting services to undertake the following two components: (i) The creation of a National NCDI Commission to advance knowledge and programing in Haiti, and (ii) generating knowledge about NCDIs in Haiti.

According to the IADB, there are no associated environmental risks and expected positive social effect, particularly among the poorest and vulnerable of Haiti. The environmental and social safeguard classification system for this operation is "C".

Investment Description

- Inter-American Development Bank (IADB)

Estimated project cost is US$150,000, financed with the Special Program for Employment Promotion, Poverty Reduction and Social Development in Support of the Millennium Development Goals.

This investment is through non-reimbursable technical cooperation.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
