Project Description

According to the IDB, this project will: "fund the implementation of an experiment that provides information to schools and families in a sample of "closed schooling markets" across Haiti. Specifically, in this experiment, we will provide report cards to parents and schools located within these markets with information on school performance (quality) and school fees, in addition to an accountability component which will consist of a school ranking in each schooling market. These report cards will allow us to observe the impact of information on school outcomes (e.g. average school quality, prices, enrollment patterns, etc.), the school choice decisions of parents, and the policies that schools implement to compete in the schooling market."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
