Project Description

The objective of this project is to set up a channel of communication between Ecuador, Haiti, and possibly Guatemala to have dialogue over the issue of Land Administration. The project will allow a delegation of Haitian technicians to conduct a feasibility study and develop a Land Information System, and what impacts these activities can have on Haiti. They will then show the benefits of these interventions to the local population in Haiti.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
