IADB-HA-T1230

Building a Resilient Vetiver Value Chain

## Quick Facts

Countries	Haiti
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	U
Voting Date	2017-06-15
Sectors	Agriculture and Forestry
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.36 million
Project Cost (USD)	\$ 0.63 million

---

## Project Description

From the IDB: "This project directly aligns with the MIF's Climate Smart Agriculture (CSA) program as it seeks to position Haiti as a supplier of sustainably produced vetiver and scale the introduction of CSA practices and technologies in the vetiver value chain. This intervention will improve the environmental and economic resilience of rural communities in two geographic departments (South and Southeast), integrating 500 small farmers' households - 30% of whom will be women into the vetiver value chain to increase their household income and continue to contribute to sustainable land management."

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
