## Project Description

The purpose of this TC is to support the design of operation HA-L1134 aimed at reducing maternal and under 5 mortality rates. The health operation interventions will take place mostly in the North or North-West departments with some activities in the North-East, following the geographical focus of the Bank's Country Strategy 2017-2021. The TC will fund necessary studies to identify strategies to reduce maternal, neonatal and under 5 mortality rates and inform components of the operation.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
