Support the Ministry of Health and Population in the identification of strategies for Reducing Maternal and Neonatal Mortality

Project Description

The purpose of this TC is to support the design of operation HA-L1134 aimed at reducing maternal and under 5 mortality rates. The health operation interventions will take place mostly in the North or North-West departments with some activities in the North-East, following the geographical focus of the Bank's Country Strategy 2017-2021. The TC will fund necessary studies to identify strategies to reduce maternal, neonatal and under 5 mortality rates and inform components of the operation.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
