Project Description

The objective of this TC is to implement the second phase of the experiment which aims to evaluate the impact of access to information and accountability in the Haitian schooling system. The funds of this TC will be used to finance the end-line surveys to collect data that will allow to observe the impact of information on school outcomes (e.g. average school quality, prices, enrollment patterns, etc.), the school choice decisions of parents, and the strategies that schools implement to compete in the schooling market.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
