Project Cost (USD)	$ 0.65 million

Sustainable and Innovative Rural Water, Sanitation and Hygiene (SIRWASH) in Haiti

Project Description

The overall objective of SIRWASH (Sustainable and Innovative Rural Water, Sanitation, and Hygiene services) in Haiti is to contribute to closing the gaps in coverage and quality of rural Water, Sanitation and Hygiene (WASH) services, which are socially acceptable, affordable and sustainable, thus contributing to fostering the necessary capacities and creating and enabling environment to make changes over time. The intervention will use a three-pronged approach of: 1) policy influencing, 2) innovation and 3) knowledge management with a strong focus on leveraging partnerships

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
