| Sectors | Law and Government, Technical Cooperation |
| Investment Type(s) | Grant |
| Investment Amount (USD) | \$ 0.40 million |
| Project Cost (USD) | \$ 0.40 million |

Project Description

According to the Bank's website, the purpose of the TC is to generate knowledge about social protection provision in Haiti, and social inclusion more broadly, by identifying lessons learned from the social protection portfolio and developing new insights from stakeholders, in particular from youth. The TC will fund (i) a comprehensive assessment of the impact and lessons learned of the fragility-adaptive social protection interventions of recent years (operations HA-L1145, HA-J0001 and HA-J0005), in particular large scale cash and in-kind transfers to tackle food insecurity and lack of basic healthcare services, (ii) an assessment of opportunities of providing social protection through a decentralized approach leveraging, in particular, Haitian Social and Economic Assistance Fund (FAES), regional bureaus, and (iii) a comprehensive process to gain insights and learn perspectives from Haitian youth, through activities such as youth fora, ideas competitions or hackathons, to give them the opportunity of designing and presenting a social protection and social inclusion vision for the country from their point of view. The reports and knowledge products will inform a dialogue with the Government Authorities, in particular FAES and the Ministry of Social Affairs and Labor (MAST), around how to potentially scale, through further funding, the selected opportunities.

Investment Description

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
