Investment Type(s)	Advisory Services, Grant
Investment Amount (USD)	\$ 0.15 million
Grant Amount (USD)	\$ 0.15 million
Project Cost (USD)	\$ 0.15 million

Project Description

According to the IADB, the general objective of this TC is to support the Government of Haiti (GoH) to advance in the implementation of reliable electricity access projects in Haiti that promote economic development and strengthen the sector's governance. The specific objectives are: (i) to coordinate the execution of the operation "Improving Electricity Access in Haiti" (4900/GR-HA and GRT/CF-17708-HA) with other related activities financed by operations "Battery Energy Storage System to maximize the use of surplus energy from a solar photovoltaic plant located in the Caracol Industrial Park of Haiti" (GRT/TC-19125-HA), and "Development of sustainable energy access projects in Haiti with private sector participation" (GRT/LE-19861-HA); and (ii) to support the preparation of tender processes and evaluation of proposals, including specialized services for modeling energy access projects.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
