Project Description

According to the IADB, the objective of the TC is to support the development of studies aimed at identifying potential interventions in the Les Cayes and Cap-Haitien airports, with the purpose of generating technical inputs to structure a new financing operation in the Transport, Services, and Ports (TSP) sector in Haiti. This cooperation seeks to enhance national connectivity by promoting greater mobility of people and more efficient logistics, while mitigating the risks associated with implementation in the country's current fragile context. The TC will also incorporate the guidelines of the IDB Group's new Institutional Strategy: Transformation for Greater Scale and Impact (CA-631).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
